

# Nature Scavenger Hunt!

- **feather** (Can you guess which bird? I think mine is from a goose.)
- **insect and a spider** (Can you tell the difference? How many legs? How many body parts?)
- **something climbing a tree** (Is this symbiosis?)
- **wildflowers** (What are your favorites?)
- **an example of decay or decomposition** (Do you know the difference?)
- **purple flower** (Bonus points for spotting a bee near it!)
- **pinecone** (Did you know that pinecones hold the seeds of a pine tree?)
- **a secret hiding place in a tree** (What would you hide?)
- **dandelion seed head** (Make a wish!)
